

# District Feeder Options

## **The following provides some narration on the creation of the Feeders:**

All Feeder options meet the 1<sup>st</sup> Boundary Criteria of a Complete Feeder (K-5,6-7,8-9,10-12)

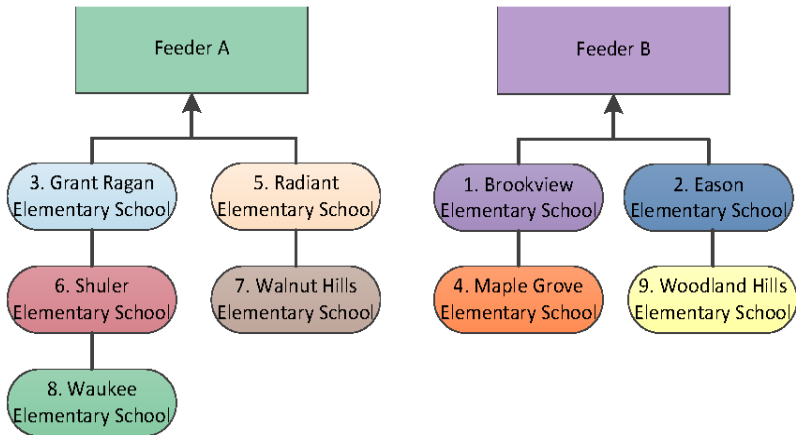

- Option 1** Feeder maintains the current feeder concept which minimizes the number of students impacted, does not improve the demographic balance of the district, is more of North/South split, and would plan for a feeder change when ES 10 comes online in 2022/23
- Option 2** Feeder changes the current feeder by moving Shuler and Walnut Hills to Feeder B and Woodland Hills to Feeder A, to better balance demographics, but it does impact many more students and puts the 6-7 and 8-9 capacity pressure on Feeder B, as well as creating a large geographic area for secondary boundary for Feeder A
- Option 3** Feeder changes the current feeder by moving Shuler to Feeder B and Eason to Feeder A, to have a better balanced demographics than Option 1

## **Talking Points:**

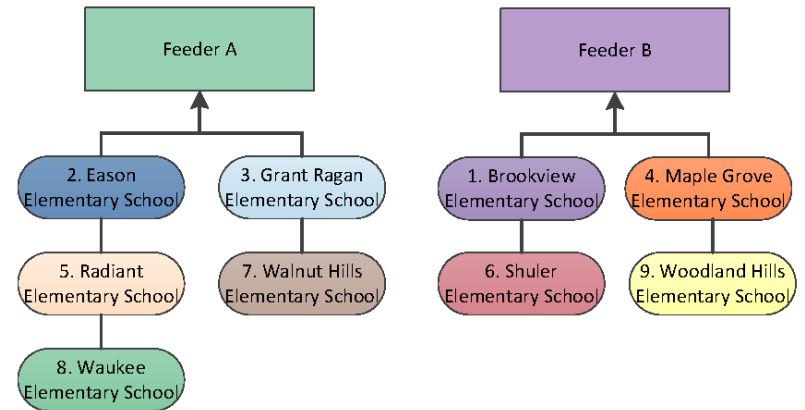

- Which Feeder Option makes the most sense?
- How does the physical secondary building assignment impact which feeder could be selected?
- Which Feeder Option best supports the Guiding Principles and Boundary Criteria?
