## DESIGN

*June 10-21*

Actors, designers, directors, choreographers, music directors, technicians, stage managers and crew all have the same job: tell the story. But each position requires unique skills & knowledge to master the magic of theatre.

In this workshop, students will learn more about the ins and outs of theatre design, including units on design history, theory, and script analysis. They will have the opportunity to turn studies into play as each individual designs a set piece, costume, prop and bring their designs to life for our summer production of *Puffs!*

*Instructor: Susanna Douthit*

## ACTING

*June 17-28*

This two-week workshop dives into the world of comedic acting using the hilarious script *Puffs* by Matt Cox, currently breaking records off-Broadway.

Students will learn to create multiple characters, improve their improv, and learn acting technique while studying voice, acting, script analysis & physical comedy.

Please note: in order to make best use of our classroom time, auditions for this camp will be held on Wednesday, June 5. Attendance is required at auditions, all class sessions and final performances, June 28-30.

*Instructors: Emily Davis & Nate Jorgensen*
