

Waukee Community School District Five-Year Strategic Plan

By Fall 2030, the following will occur:

Priority 1: Student Success in the School, Workforce, and Life

Waukee CSD will have a 100% graduation rate and all graduates will have had at least one work-based learning experience and a plan for two years beyond high school.

Priority 2: Connection, Communication & Advocacy

We will tell the story of Waukee CSD through a unified district tagline, a new website focused on accessibility and usability, and a marketing strategy that highlights the unique opportunities and career pathways to families.

Priority 3: Investment in our People

In the context of a safe, collaborative, and supportive work environment, all Waukee CSD staff will experience a fully-aligned professional learning system from hire to retirement.

Priority 4: Financial Health and Risk Management

Waukee CSD will have a system that balances student experiences with overall district financial health; maintain high-quality measures of the system; and be a model for workplace health, safety, and wellness.

Priority 5: Operational Effectiveness

We will have high-levels of customer service across all operational departments; fully implement physical safety and cybersecurity procedures district-wide; and maintain and/or enhance our facilities and infrastructure.
